DIVE COMPUTER DOWNLOAD INSTRUCTIONS

For Sherwood & Genesis Dive Computers

Before you begin this process, it is essential that your hardware components are compatible. The current Sherwood computers use the Sherwood Download Cable (SDK400) and the older models use the Wisdom Download Cable (SDK200). The reference chart below will help you identify your computer and the appropriate cable needed.

| COMPUTER | HOW TO IDENTIFY | CABLE NEEDED |
|-----------------------|-----------------|--------------|
| WISDOM2 (9100 Series) | Chrome Buttons | SDK400 |
| WISDOM2 (7100 Series) | Blue Buttons | SDK200 |
| WISDOM (4100 Series) | Grey Buttons | SDK200 |
| InSight (2009 Series) | Chrome Buttons | SDK400 |
| InSight (2006 Series) | Grey Buttons | SDK200 |

The current Genesis computers use the Genesis Download Cable (GDK400) and the older models use the ReAct Download Cable (3900DR). The reference chart below will help you identify your computer and the appropriate cable needed.

| COMPUTER | HOW TO IDENTIFY | CABLE NEEDED |
|-------------------------|-----------------|--------------|
| ReAct Pro (2009 Series) | White Face | GDK400 |
| ReAct Pro (2006 Series) | Grey Face | 3900DR |

Second, you must make sure you know the operating system of your personal computer in order to download the correct driver. If you are using Vista or Windows 7, you must confirm which version you are using; 32-Bit or 64-Bit. There are different Drivers for the different Operating Systems. To locate your Operating System, click on the Start button from your desktop and select the Control Panel option. Then click on the "System and Maintenance". Next select the "System" option and once selected, you will be able to determine which operating system you have.

Now that you have the proper cable, and the correct software driver downloaded, we can continue.

Becoming a Team Member

Step One

Create a Team Member account on the Sherwood or Genesis website. Do this by clicking on the "Team Sherwood" or "Team Genesis" link at the top of the home page. When creating your account make sure that you select the brand you are working with or all three for good measure. (If you already have Team Member account, log in and start at step 2.)

Finding Downloads

Step Two

Select the correct link for Genesis "GN Downloads" or for Sherwood "SH Downloads".

SH or GN Download Options

Step Three

Click on the link "Dive Computer Software".

and are acknowledged as world leaders in the diving

If there are files listed here with the .PDF extension, you will need to download the Acrobat Reader to view them (it's free!) :

Step Five

Install correct driver by opening the downloaded file and following the on screen instructions.

Step Six

Once the driver is installed then download and install your dive computer software by opening the file downloaded and following the on screen instructions. Each software link is labeled with the computer it was designed for.

Downloading Software

Step Seven

Now you have the software installed correctly and you can download your dives.

Step Eight

Launch the Dive Computer Software program from the shortcut that was created on your desktop.

Locating Dive Log

Step Nine

On the left side of your screen, under the "Dive Log" section, click on "Dive".

| | Dive Log | | | |

| 🖌 ок | Cancel | 🖌 ок | Cancel |

Step Twelve

If USB interface found, click on the Start Download button that looks like a blue "play" symbol that is located in the icon bar. You have now successfully downloaded your dives!

| Download Dive Data from WISDOM |
|--|
| File Help |
| USB Interface FOUND. |
| - Download Instructions |
| 1. Plug the USB interface cable into an USB port on the PC. |
| 2. Select Test Interface button 🔎 from the menu bar to search for the USB Interface. |
| If the Test Interface returns message "USB Interface FOUND", continue on steps 4 to 7; otherwise, please see Help for troubleshooting. |
| 4. If the DC is OFF, activate by depressing the FRONT button |
| 5. Plug the connector on the end of the interface cable into the Data Port located on the left side of the WISDOM. |
| 6. Depress the Front button 7 times to access the PC screen. (You have 2 minutes to initiate download). |
| 7. Click on Start button 🕟 from the menu bar to begin. |
| |

Step Thirteen

If no USB interface is found please follow the troubleshoot questions on your screen. After following those instructions and still having trouble un-install the software and start from step 2 again.
